- Diluted pH; 10.9
- Available in : 4 L Concentrate

Diluted pH: 10.9
Dilution Ratio: Up to 1:10

STREAK FREE FORMULA

Directions for use:

For general purpose glass cleaning: dilution ratio is 1:10. Add Glass Cleaner concentrate into the mixing bottle up to the general purpose cleaning line (65 ml) and add water to fill ring.

Once diluted, turn sprayer nozzle to the open position and spray soiled area. Using a dry lint-free clean cloth or paper towel, wipe the surface to remove any soils and polish dry to a streak-free finish. Return spray nozzle to the off position.

Note: Do not mix Glass Cleaner concentrate with any other chemical product.

Keep this product out of reach of children. Read the Material Safety Data Sheet and the Product Label before using. Take the necessary precautions dictated by the label to ensure that your health and that of your customers' is protected.
