Tile & Grout Cleaner

Eclean Acidic Tile & Grout Cleaner is a quick acting safe to handle Acidic product designed to remove soil embedded in porous grout, hard water build up on ceramic tile, stone and grout. Acidic Cleaner uses ingredients that are significantly more effective than many traditional acids at removing insoluble salts and safer to use.

Diluted pH: <1

Directions for use:

Pretest in an inconspicuous area for compatibility. For use on Acid resistant tile or stone. Not for use on natural stone such as marble, lime stone or any other acid sensitive surfaces.

Use caution when using this product not to come into contact with any other surfaces other than the surface being worked on.

Heavy soil conditions: Mix 945 ml (32 oz) of Acidic cleaner with 3.78 L (1 gal) of warm water.

Remove loose soil or dust by vacuuming or sweeping area. Working on a small area at a time apply product using coarse sprayer or mop. Acidic Cleaner will etch the stone and grout removing a thin layer. It is important to limit the dwell time to 3 or 4 minutes and if necessary repeat the process. Brush agitation will aid in the etching process. Rinse surfaces using Eclean's Neutral Tile & Grout Cleaner and a hard surface high pressure spinning attachment, in conjunction with a high pressure portable machine, or truckmounted equipment, set pressure at 1000 PSI for optimal cleaning to neutralize the area preventing further degradation of the tile and grout.
