URINE REMOVER

Urine stain remover

Urine Remover is a special blend of surfactants and emulsifiers that are designed to break down urine stains.

- Dilution Ratio: 1:2
- Removes pet urine stains
- Neutralizes alkaline residues from pet urine
- Rinses easily with water
- Available in: 1 L (34 US oz), 4 L (1.06 US gal)

AN EFFECTIVE TREATMENT FOR URINE STAINS

DIRECTIONS FOR USE:

Pretest in an inconspicuous location for color fastness and fibre stability.

Mix 42½ oz (1.25 L) of Urine Remover into 85.2 oz (2½ L) of warm to hot water (Dilution 1:2). This produces 1 gal (3.78 L) of mixed solution. Mixed solution should be applied using a hand pump sprayer to saturate the area.

Emulsification time will depend on degree of stain and amount of time

stain has been in the carpet. Do not leave Urine Remover on fibres for longer than 15 minutes. Flush the area with hot water extraction using Esteam Fibre Rinse solution.

Some urine stains may be difficult to remove as the dyes may have been effected by the urine.

Note: Do not mix Esteam Urine Remover with any other chemical product.

Keep this product out of reach of children. Read the Material Safety Data Sheet and the Product Label before using. Take the necessary precautions dictated by the label to ensure that your health and that of your customers' is protected.

Diluted pH: 4.7
Dilution Ratio: 1:2
