DEFOAMER

Defoamer is an additive used in the recovery tank of portable extractors and truck mounted carpet cleaning machines to knock down the foam allowing vacuums to run at peak levels.

pH: 9.4

Dilution Ratio: Ready to Use

Packaged: 1 L, 4 L & 20 L

Directions for use:

Shake well before using.

Defoamer is ready to use and can be poured directly into the recovery tank. If necessary, Defoamer can be sucked up the vacuum hose to control foaming.
